

EduSkills

Professional Development & Instructional Guidance

EL Professional Development and Instructional Guidance: A new and unique EduSkills EL service that helps educators support their EL students with 8 professional development trainings tied to resources and activities accessible 24/7 through a secure cloud-based system. The service provides access to multiple resources which support the academic instruction and language acquisition of all K-12 ELs. Designed by professional EL educators, this service is a proven solution for all teachers that uses extensive research based instructional resources and materials.

Exciting New Onsite PD with Access to Web-based Resource Modules

Second Language Acquisition

Identify common myths and learn the facts and characteristics of second language acquisition to inform your lesson planning and instruction

State and Federal EL Policy Guidance

Gain insight on state and federal EL policy, stay in compliance with requirements and take advantage of the additional support you can provide to your EL's

Assessment in the EL Classroom

Utilize an assessment framework for EL's to develop and apply meaningful assessments in the classroom. Learn how to use assessment data to plan instruction relevant to your EL student progress

Creating Content and Language Objectives

Learn how to develop meaningful content and language objectives in lessons addressing differentiation for EL's language development. Explore strategies to accommodate your students' learning styles

Building EL Academic Vocabulary

Gain access to academic vocabulary activities and strategies that will help all EL students simultaneously increase content mastery and language development

EL Instructional Strategies

Apply instructional strategies designed to promote cooperation and communication in the classroom, boost students' confidence and retain their interest in lessons while promoting language acquisition

Teaching Reading and Writing to ELs

Learn to apply successful reading and writing strategies in every subject area to build curriculum and content that improves student mastery and increases engagement while supporting instructional rigor

EL Student Goal Setting

Help students build the skills needed to develop effective goals and action plans by analyzing data to setting goals and measuring progress
